Latest release - version 23.01.09

11-09-2023

CAD-9410 ECAD: Workzone menu refresh, new interface.

08-29-2023

CAD-9352 ECAD: Limelite on Tandem Seating.

08-09-2023

CAD-9425 ECAD: Unite Preconfig Stackable Intersections.

06-12-2023

CAD-9328 ECAD: Tattoo Menu Refresh.

06-07-2023

CAD-9297 – Unite/Legion: Remove a bracket rule from WSB routine.

CAD-9300 - Venus/Balance LED Light Issue

05-31-2023

CAD-9136 – MyPlace Bookcase, New Product: Curved Bookcases.

05-02-2023

CAD-9234 – Athens menu refresh, new interface.

05-01-2023

CAD-9235 – Backbone menu refresh, new interface.

04-13-2023

CAD-9239 – KI_OEI Flipper Overhead Removal.

CAD-9240 – Pirouette Table BOM Issue.

04-03-2023

CAD-9170 – Affina new interface.

03-07-2023

CAD-8816 – All Terrain now can be fully specified/optioned through the SS program.

01-04-2023

CAD-9029 – Released new interface for Intellect Activity Tables.

12-19-2022

CAD-9015 – Resolved model number issues with MyPlace .

12-07-2022

CAD-8807 – Released new interface for Stout Tables.

11-22-2022

CAD-8419 Trek new interface.

11-04-2022

CAD-7931 All Terrain line revamp, has new interface.

11-01-2022

CAD-8804 – Overhaul of Connection Zone product line to add new surface cutout option

10-31-2022

CAD-8864 – Removed Oxford Activity Table listing – Discontinuation

10-27-2022

CAD-8771 – True Power Pole Changeover

10-26-2022

CAD-8331/8853/8869 – Various Pirouette fixes. 30 and 36 Depth Tables modesty panel picks updated.

Update Extract.exe for Top-Cap fix

Added MyPlace High Back and Power options, under AGI menu

Added StraddleScreens under Powerworks and System XXI menu

DC command updated

CXO Seating Overture menu

Breath update

Add Ruckus Work Tables Line Extension

12-09-2020

DC Command: cord managers, coat hooks, and name plate accessories interface.

Added C-Table Max

Added Pillar Line Extension

Added Athens Line Extension

Added MyPlace Line Extension

Added Unite Gallery Panels

Add RPT covers to Pirouette Accessories

Remove IL20 & IL61 from Ivy League

Added/Culled Connection Zone Wood Leg Conference Tables CN-024381

09-24-2020

Revert ECAD Update.

09-18-2020

Unite BYO panel, height power above beltline in elevation view.

09-17-2020

Updated BOM compiler: KI Product, drop "A" when making a BYO steel tile panel with worksurface height power.

Encompass CAD Update History

Latest release - version 23.01.09

07-28-2020

CAD-7259 VXO 3D chair

06-16-2020

CAD-7535 Systems Loose codes DLL program to add SLEA9

04-10-2020

Updated BOM compiler so full glass tiles are quantified correctly when breakout tile is selected.

Added Polyester Felt modesty option to Work Up and Toggle tables.

Added Calida line extension.

Added 3d (Graphic Only) Caster Blocks to Toggle Accessories

Added Diem Task Stool CN-022381

Added Richochet Stool CN-023282

Added Universal Screen Line Extension

Add 66" Rectangular Activity Tables to Ruckus CN-023743

Added Unite Gallery Panels

04-01-2020

SQL update released for offline application support.

Updated elevations in Promenade menu.

Added Polyester Felt modesty option to Hurry Up and Pirouette tables

Added missing 60x72x24 Ruckus Horseshoe Activity Tables

Added 3D graphics for Ruckus Post Leg Accessories

Added Footrest to Serenade Gathering Tables CN-018203

Added Strive HD Stools

Added Oath Task Stool

Added Upholstered Seat option to Opt4

Added Heat and Massage Graphics to Soltice and Affina Recliners

Added 400 & 600 Series folding chairs

Added plastic flat bookrack to Learn2

02-28-2020

Added Wiggleroom product.

01-29-2020

CAD-7319 EC6 3D Seating (TY)

01-22-2020

TSS commad added to place Stacking trim on same height conditions.

400 Series & 600 Series Folding Chair launch, active on January 29, 2020

Hub menu relocated.

12-04-2019

SQL update released for offline application support.

11-14-2019

Unite – Bug fixes to remove Espec verification on Unite Personalized Configurations and BYO config error.

Station ID – added 2D Ruckus to auto-snap feature.

Diem Launch, active on December 11

11-06-2019

Doni – Revise under seat structure of tapered wood leg guest chair to match design changes

Universal Adjustable Screen – Add sizes 52", 64" & 82" to offering

Unite – Personalized Configurations added. (Build Your Own)

SQL update released for offline application support.

10-31-2019

Unite - Beltway kits added to electrical menu.

Station ID – Removed ghost snapping. Station ID will still snap to chair when selecting point near chair.

10-28-2019

Pillar – Add stiffener to boat, rectangular and reduction 60" wide tables

Unite – G0 Glass panel bug fix.

Encompass CAD Update History

Latest release - version 23.01.09

Series 700 Desk – removed power-up option and toggle utility.

10-14-2019

SQL update released for offline application support.

CAD-7316 BorderManager (CAD Code list).

CrossRoads – Update mobile pedestal to match engineer drawings

Strive – New comfort tilt mechanism added to offering

10-11-2019

CAD-7196 Totto data raceway additions (TY).

10-03-2019

SQL update released for offline application support.

Unite/Wireworks – Removed the ability to use Toggle Raceway Cutout (TRC) utility on BYO panels.

09-23-2019

CAD-7297 Aristotle Conference tables updated to show correct power graphics

Unite – Allow additional grommet options on 120 degree surfaces. GENGROM bug fix.

09-03-2019

Ruckus – Add 3D to model RKAUSR3TKIT1

Unite – Beta release of BYO Unite available to QA test group.

08-28-2019

MyPlace – Line extension adding 45 and 60 degree wedges, hexagon ottoman, and more...

Toggle – Line extension adding square shoe to offering

08-19-2019

Unite - Enhanced stack utility with ability to span two base panels, CAD-4449

Unite - Updated glass frame 3d graphics on preconfigured panels and stackable sections.

Added edge filter to search toolkit for Soltice Metal connecting tables.

Strive Tandem - Fully enhanced to match 2020 standards including revised menu.

08-08-2019

CAD-7230 A-size template border manager to be auto-filled in textboxes for drawing name.

Bom Compiler version 9.1 – added BYO Unite compatibility.

07-24-2019

Custom Block Toolkit – Added place holder to a clone object for displaying tag from dialog window

Medical and Laboratory Stools - Fully enhanced to match 2020 standards including revised menu.

3D menu picks added to Stools menu for Apply, Opt4 & Industrial stools.

Contrasting Fabrics – Added window select option to CF command, CAD-7243

Intellect Wave – Revise blocks to always display glides, hard plastic tops now match engineer drawings

MyWay – Added cupholder option to low arm seats.

Sela – Added picks for wood arm option CAD-7172

VERSION 21.12 – 07-10-2019

Connection Zone Topfeed – Prevent topfeed from inserting where no edge clearance wider than 1.5", CAD-7059

Folding Chairs - Fully enhanced to match 2020 standards including revised menu.

Unite and Totto: Added Controlled Receptacle pick

Enabled background Live Update feature.

Ruckus – Line extension adding single faced units and totes to storage collection

Unite – Modify transaction countertops, correcting overhang from 4" to 3"

Wireworks – Modified Support Panel (SP) macro to ignore D-shaped surfaces to prevent support panels from being specified on adjacent surfaces.

Aristotle – Added paper sorter for use with tackborads

VERSION 21.11 – 06-28-2019

Wireframe DXB feature added to View menu for displaying internal components of panel systems.

Aristotle – Added design logic to prevent Aristotle from being specified adjacent to Aristotle Executive

Matrix – Fully enhanced to match 2020 standards

Promenade – Fully enhanced to match 2020 standards

Rapture – Fully enhanced to match 2020 standards

Wireworks – Removed High Acoustical tiles from BYO offering. CN-015581, PB-000269 19:067

Encompass CAD Update History

Latest release - version 23.01.09

VERSION 21.10 – 05-31-2019

Additional version information added to Help menu.

Live Update – Beta release of daily background update feature.

Aristotle – Added Support automation for Desktop Panels and Standard/Executive conflict resolution.

Ivy League - Fully enhanced to match 2020 standards

Mini CPU Holder added

Task Lights – added Window selection option to assist with updating task lights after swapping overheads.

Versa Seating - Fully enhanced to match 2020 standards

VERSION 21.09 – 04-24-2019

Accessories – Add mini CPU holder, KOCPUM

Pirouette – Add 60" rectangular conference tables to offering

Overhead pulldown menu, added pick for Universal shelf and low shelf.

Panel products overhead menu edits

Unicor universal screens..

CAD-6913 Datalink Villa 10 wire power issue

TLS 1.2 support.

VERSION 21.08 – 04-02-2019

Espec Import – isolated bug fix with TXT file import into Espec.

Crossroads - Fully enhanced to match 2020 standards including revised menu.

Discontinuations – products with 3/29 effective date have been deactivated. See PB-000193

VERSION 21.07 – 03-27-2019

Connection Zone – Electrical Accessories moved to Electrical pulldown.

Grazie Tandem Menu – Removed all picks that had seats attached to table ECN140087.

Enlite – Boomerang table corner radius changed from 1.50" to 2.38"

Genesis – Square Shoe surface graphics updated.

RoomScape – Minor revision to loft bed cross brace

VERSION 21.06 – 03-13-2019

Genesis - Fully enhanced to match 2020 standards

Intandem – 17" jumper replaced with 23" jumper. 30" beams now allow 1 receptical vs 2

VERSION 21.05 – 02-19-2019

Piretti Torsion - Fully enhanced to match 2020 standards

Multiseating menu – added 3d pick for Piretti Torsion

Workgrouped BOM (ABOM) – removed the requirement to select a point to continue.

SQL Update – Version number displayed in help menu is refreshed after install.

Tattoo – enabled toppler kits on Segmented Flex Screens with Markerboard. Bug fix.

Pirouette /w Activ8 – added separate menu.

CPUSLING and KOCPUS Fully enhanced to match 2020 standards.

VERSION 21.04 – 01-31-2019

Tattoo – base infeed macro adjusted to insert same height as screen.

Custom Block Toolkit – tag is cleared out when cloning graphics and must be prefixed with *S

Receptacle Macro (C1) – bug fix. Corrected Tag angle.

Pillar - 36"H tables now available as standard product offering

Voyant, Calida, and Voz chairs added

Ruckus ADA Desk added.

VERSION 21.03 – 01-02-2019

Wireworks – substituted Wood Edge Laminate (WE) edge style with (WL)

Series 700 Desk – SE Self Edge discontinued

VERSION 21.02 – 12-12-2018

Series 700 Desking and Storage - Fully enhanced to match 2020 standards

Connection Zone – Bug fix where stand-alone divider screens would not insert using the menu.

Profile Backups – Updated to include both the AutoCAD version and <<unnamed>> profiles.

Ruckus – Add plate under worksurface; separate layers for column and base for chrome finish.

Self Edges 64E/SE – Discontinued [PB-000182](#)

Help Menu – consolidated current version display and Live update selection into a single menu pick.

Encompass CAD Update History

Latest release - version 23.01.09

VERSION 21.01 – 11-16-2018

Tattoo - Added 3D to magnetic inserts

Tattoo - Added receptacle infeed option to Base Feed macro, Added In-line feed options to both Top and Base Feed macros, Added magnetic component design rule. Added Match Core Style (MCS) macro to change out core styles on spine and flex screens.

Web Download – bug fix where error is displayed during download on select blocks.

VERSION 21.00 – 11-05-2018

Tattoo Launch, active on Nov 07

Tattoo – Added receptacle infeed to Base Feed macro. Added In-line feed options to both Top and Base Feed macros.

Removed drawing specific product menu and CAD setting memory.

VERSION 20.16 – 10-18-2018

Wireworks – wall track graphics updated with both LH and RH insertions.

VERSION 20.15 – 09-20-2018

All Terrain – Enhanced AV towers, binder towers, low height storage and pedestals to 2020 standards

Toggle – Table menu changed from Dual to Electrical notation

Unite – Graphics for 72" wide marker tiles are now split

Border Manager – Compatible with AutoCAD 2019 for Template "A"

Product Options – Removed Storage style selection

Genesis – Enhancements made to MODESTY toggle

RoomScape – Add anti-racking brace to spring frame loft bed

Workup – Pedestal specification rule added for 66" and 72" wide fixed leg tables, stiffener added to graphics

Pillar – center posts added to 42x72 and 48x72 surfaces

VERSION 20.14 – 08-27-2018

Station ID – Removed Intellect Wave desks from smart snap selection.

Connection Zone – design rules added for U-series pedestals.

Border Manager – compatible with AutoCAD 2019

VERSION 20.13 – 07-26-2018

Pirouette – removed modesty panel option on Active8 tables 30" & 36" deep

Wireworks – enhanced graphics are now downloaded and updated automatically in background.

VERSION 20.12 – 07-20-2018

Wireworks - Enhanced to 2020 standards effective on drawings created on or after 07/21/2018 Laptop and remote users must download and install the revised Wireworks library using the Help menu.

All Terrain – removed S1 pull and added S5 and S6 pull options

FourC – task chair and stools added

Pirouette – leg blade depth shortened per CR-004842 and legend updated.

Connection Zone – adjusted cutout availability on conference tables.

VERSION 20.11 – 06-07-2018

Corrected issues with extracting Menu icons from the update package.

Corrected issue with long save time on larger drawings.

VERSION 20.10 – 06-06-2018

Connection Zone – removed left and right grommet locations on dual and teaming worksurfaces, bug fix

Connection Zone – corrected part numbers on starter wood leg assemblies

Ruckus – added 2D graphic option

Encompass Icons now included with the Live Update, AutoCAD 2019 icon bug fix

Custom Block toolkit - * required on TAG for all custom blocks

VERSION 20.09 – 05-02-2018

Undershelf LED task lights added. 5/2 launch date

Connection Zone – generic splice plates added to return surfaces (visual only)

VERSION 20.08 – 04-04-2018

Ruckus Lecturn available.

Connection Zone Wood Leg – soft launch scheduled for 04-18

Ashley Duo – removed Above surface option on Connection Zone

Unite - flat bracket specification aborted when Center support legs are found

SWP macro – updated to swap objects in all layouts

Encompass CAD Update History

Latest release - version 23.01.09

VERSION 20.07 – 03-07-2018

Impress – model number change and 3d graphics updated to reflect JR69 arm

VERSION 20.06 – 03-07-2018

Installation Program updated

Unite Panel Descriptions changed from Open to Elevated Base per CAD-4311

AutoCAD service pack verified daily for 2017 and 2018 effective 04-01-2018

Ruckus Desks - 3D accessories added

Profile Backups – bug fix with unnamed profiles

VERSION 20.05 – 02-15-2018

Coat Hook – Added metal coat hook to Drawing Completion (DC) command.

Connection Zone Wood Leg – Beta release

Adjusted BYO Steel tile rules per CAD-4334

VERSION 20.04 – 01-12-2018

Kurv - Enhanced to 2020 standards

Intandem – Flat Screen Garage and Smartlift moved to its own menu.

Uniframe –

1. Fully enhanced to match 2020 standards
2. ECAD menu's added for 2D and 3D picks

Cafeway – 3D graphics updated to show round seat

Unite – Updated New York Base Infeed Graphics

Genesis - EP edge specification rule added

Daily Profile Backups added for AutoCAD migration

*Special notation on ledgers changed to *Custom

ecad.ki.com utilizes same images as enhanced search function

VERSION 20.03 – 12-18-2017

Bug fix – Ledger Removed generic XX reference from BYO panels.

VERSION 20.02 – 12-13-2017

Bug fix – Corrected preconfigured panels being broken out on ledgers.

VERSION 20.01 – 12-13-2017

Workup – trough locations added.

Toggle – trough locations added.

Duplicate Product Audit added to BOM extract (default setting on)

Search toggle added to ECAD configuration

Blue Sky – removed offering

VERSION 20.00 – 11-15-2017

Wireworks – Edge profile added to Knife Edge surfaces and counters. BYO panel trim optimization.

Unite – Corrected bracket specification on 120 degree surfaces.

Border Manager – Updated to work with Windows 10 in addition to Windows 7

Intellect Wave Enhanced to 2020 standards

Enhanced Search feature includes 3D/2D preview

VERSION 19.27 – 10-11-2017

Bug Fix – Corrected issues with inserting Wireworks worksurfaces causing AutoCAD to freeze.

Dorsal Tandem – Removed Arm option per CN-002541,09341

VERSION 19.26 – 10-10-2017

Impress and Learn2 Enhanced to 2020 standards

Border Manager updated for use with AutoCAD 2018

Pirouette /w Activ8 launched.

VERSION 19.25 – 09-18-2017

Layout Views – added REGEN to ensure all graphics are displayed when switching layout views within model space.

VERSION 19.24 – 09-05-2017

Metal Top Caps - BOM compiler removes unused metal top caps when Glass dividers are specified.

Legacy Acive8 model numbers updated during the BOM extract.

Encompass CAD Update History

Latest release - version 23.01.09

VERSION 19.23 – RELEASED 08-22-2017

Altus – Added 3D for task chair with headrest

Aristotle – Added 36 x 20”D freestanding locking cabinet to storage menu, both standard and executive

Genesis – Revised arcade peninsula to match engineer drawings; revise layers to match 2020 standards (Arcade only)

Kurv – Revised tufted bench geometry to more accurately convey fabric

VERSION 19.22 – RELEASED 07-19-2017

INTELLECT WAVE – Enhanced E424 , E430 & E4872K tables to 2020 standards

Pirouette – Modification to fixed trapezoid base locations

Pirouette – Added stiffener to 36”H & 42”H tables

Pirouette – Modification to fixed Scale-Up (PIFS3072) base locations

Pillar – Additional 2nd supporting center leg added to models **PLRT3684** & **PLRT3696**

Support panel specification – automated specification is now aborted when existing c-leg is found.

Station ID – user can now select/window an area or the whole drawing.

Wireworks – added Low Cost markerboards to Accessory menu

VERSION 19.21 – RELEASED 06-14-2017

Unite System – 54” Panels Now Available

CafeWay Octagonal Table – MC Edge Not Available

Pillar Rectangular Tables – 84” and 96” with 6 Legs

Genesis Desking – Table Mounted Plastic Dividers – Discontinued

Versa Conference Caster and Sled Base Chairs – Discontinued

Tea Cup Lounge Seating – Polished Aluminum Leg No Longer Available

Border Manager (BM) command - Added check for Paper Space

VERSION 19.20 – RELEASED 05-31-2017

Lyrs – Fully enhanced to match 2020 standards; correction to loveseat and sofa cushions

Pirouette – Modification to 30” fabric modesty panel to correct location of cutouts

Workup – Modification to crank height tables to eliminate 3D solids

C-Table – Officially launched 5/17

PowerWorks – added metal trim specification rule for doors.

VERSION 19.19 – RELEASED 05-03-2017

Wireworks – removed Metal top cap profile from graphics

CONSTRAINTINFER variable set to 0

VERSION 19.18 – RELEASED 04-21-2017

Added service pack check for AutoCAD 2016 and 2017.

VERSION 19.17 – RELEASED 04-19-2017

Intellect Wave – Revised layering to match 2020 standards, [PB-000036](#) model number change

Torsion Air – Fully enhanced to match 2020 standards

Intandem - Moved CPU leg clamps (INTCPU) to Accessories menu, Added ADA “C” Legs, ITFLADA, to Flat Screen/Smart Lift flyout

Pillar – Corrected issue with menu, 30x48 Rectangular table now pulls correct block

Oxford – Corrected issue with duplicate legs

Aristotle – Corrected issue with *No Grommet* setting inserting grommet on shell desk

VERSION 19.16 – RELEASED 04-05-2017

Integrated Culture specific date formats in product validation.

Pillar – Corrected grommet locaton on 36x66” and 36x72” surfaces

Unite Glass finish moved to product options.

Laptop Garage - removed

VERSION 19.15 – RELEASED 03-15-2017

Aristotle – Revised Aristotle mobile marker board, KMWD4872.H; marker board shown on incorrect side

Pillar – Added stiffeners to 72” wide reduction tables

U-Series – Revise overheads, PUSSDH, to match 2020 standards

Ruckus – added Worktable

Blu Sky – AerDyn & Xylon modified to match 2020 standards

Pirouette – Correction to graphics for TT bases shown on rectangular & double chevron tables
